### **YESTech Opens Singapore Office To Support Growing AOI and X-ray Inspection Markets**

*New Singapore office provides additional training, service and support for existing clients and equipment demonstrations for new clients.*

**San Clemente, CA – June 24, 2005** – YESTech, an innovative provider of yield enhancement solutions announced today the opening of its Singapore office, 10 Ubi Crescent, #01-62, Ubi Tech Park, Singapore. The office provides sales, training and technical support to YESTech's growing South East Asia customer base.

The new Singapore office will provide training and sales for YESTech's YTV Series of automated optical inspection (AOI) systems and YTX Series of X-ray inspection systems. These cost-effective yield enhancement solutions for printed circuit board assembly and advanced semiconductor packaging industries lower board failure rates and insure a high quality product.

"The opening of the Singapore office is yet another milestone for YESTech," said Don Miller, President of YESTech, Inc. "With the addition of this office we will be able to provide additional training, sales and customer support to our existing clients and potential clients. We can now more effectively demonstrate our products and reduce the sales cycle for the growing South East Asia market."

"With the opening of the Singapore office, we have positioned YESTech as one of the top inspection solution provider in the South East Asian market," said S.H. Wong, South East Asia General Manager. "There is no doubt that our customers will benefit from a significant increase in resources on a local level."
