YESTech to Exhibit AOI and X-ray Inspection Solutions at the AT Expo/SMTA International 2006 on September 25-28

YESTech Showcases F1™ AOI System and YESPC Software in Booth 5303

San Clemente, CA – August 23 , 2006 YESTech, a leading supplier of automated inspection and yield enhancement systems for the electronics industry, will showcase the synergies of its two hallmark products - YESPC Software and F1™ AOI system - at the Assembly Technology Expo/SMTA International 2006, in Booth 5303 in Rosemont, IL.

The YTV F1-Series AOI system delivers the fastest inspection and most intuitive interface automated PCB inspection solution. It is ideally suited for high-volume manufacturing environments and not only provides unsurpassed quality and reduced costs, it also improves yield enhancement and increases throughput. The F1-Series AOI off-line programming also maximizes machine utilization with real-time SPC monitoring, and provides a valuable, easily configurable and portable yield enhancement solution across multiple manufacturing lines.

YESPC software is a fully compatible enhancement to the already powerful capabilities of YESTech's complete line of AOI technology. The software enables senior management to make informed decisions by providing diagnostic and trending analysis of the manufacturing process, saving them time and money. Its' real-time monitoring and reporting allows management to immediately react to critical process events In SMT production processes

"We view this show as an excellent opportunity to not only introduce new products, but also meet with our valued customers in the mid-west." said YESTech president Don Miller. "Throughout the Conference, YESTech will be demonstrating the latest enhancements of the award-winning technology, the F1-Series AOI and YESPC software, offering the best value in AOI solutions"

Editor's Note

A high-resolution image of both products is available by calling (949) 361-2714 or by visiting <http://www.kreativesolution.com/atexpo06.htm>. For pricing on the F1-Series AOI System and YESPC Software call YESTech's USA HQ at: 949-361-2714 or visit the YESTech website @ www.yestechinc.com

About AT Expo / SMTA International 2006

Assembly Technology Expo where over 600 leading suppliers will exhibit the most advanced robotic systems, assembly automation systems and components, hand tools, fasteners and adhesives, for reducing costs, assembling new products, reducing cycle time, and increasing capacity. Now in its 27th successful year, AT Expo is sponsored by ASSEMBLY magazine. For more information about Assembly Technology Expo 2006 and to register, visit www.atexpo.com.

About YESTech

Headquartered in San Clemente California, YESTech is a leading provider of automated optical and high-resolution x-ray inspection systems, with integrated yield enhancement solutions for the printed circuit board assembly and advanced semiconductor-packaging industries. Founded and managed by experienced industry experts compounded with a history of success, YESTech brings powerful and cost-effective inspection and yield enhancement solutions to the electronics market. The company has sales offices and customer support centers in North America, Asia and Europe. For more information on YESTech and its products, visit www.yestechinc.com
